## TAKE WARNING!

THE V. & T. R. CO. ARE ANXIOUS TO

prevent the circulation among accidents and  
loss of life resulting from the running of their  
trains and they take this method of warning  
passengers and guardians against the dangers attending  
the transportation of children playing about  
their cars and locomotives. Those having charge  
of the business of the Company find it impossible to  
prevent the same, and they will feel themselves  
obliged to resort to more decided measures if these  
inconveniences are continued. Recent accidents,  
which are wholly attributable to the carelessness of  
persons in jumping on and off the cars when in  
motion, should be warning enough in themselves.
